# COUNTY DEPARTMENT.

L. L. POATS, EDITOR.

ROGERSVILLE, APR. 18, 1877. 13 Gen. Grant denies most positively that he is going to write a book about the war. That's right, Grant, don't.

Fish traps in Holston river will have to come out if the fish law is enforcis with hook and line or with trot-line.

We hear of a good many persons proposing to raise tobacco this year. If it is a favorable season the largest crop ever raised in Hawkins county will be

The farmers of Hawkins county have never shown more industry and energy than they have manifested the present season. They went to wor early and with a resolute will to have their fields in fine condition, and th consequence is that an unusually large area has been prepared for corn, or som in oats and grass. The wheat fields d not look very promising, but the youn plants for the last ten days have been

growing rapidly.

A letter from a very intelligen gentleman, who examined the White Horn "human-sheep" says that monstros ity was not what it had been represent ed but was nothing more than a "mis shapen, premature lamb, possessing no very striking peculiarities." The thing was just what we supposed it would turn out to be, a deformed little sheep. We thank the gentleman for his letter, though we have not subscribers enough to the GAZETTE in his neighborhood to justify us in publishing it.

The State Debt.

We think it of almost vital importance | Burgner's, cheap. that the question of our State debt should be settled immediately. This is a matter which ought not to be mixed up in the politics of the State. The holders of our bonds have made their offer. If 60 cents on the dollar is more than the people ought to pay, let a law be passed funding the debt at 50 cents. This we should think would satisfy all

We hope the Governor will convene the Legislature sometime during the Sum- all khids taken in exchange. mer or early in the fall of the present year, so that this matter may be finally and forever settled. The people of Tennessee have never yet allowed them- than ever before. selves to become familiar with the word "Repudiation," and we have no is settled up the better it will be for all concerned. The present Legislature is we earnestly beg of kim to call the members together at the proper time and a have the vexed question settled.

We must not have this hard question in the canvass for Governor and State officers next year. There is danger in it. A word to the wise ought to be suffiyou, FREE OF CHARGE. This great cient. Let us have a settlement now.

### McMinn Academy.

We cannot too earnestly urge upon the new board of Trustees of the time honored institution the importance of energetically going to work to build up a first-class male school there. This is a matter which comes home to every tion to the sons of the farmers, merchants | suffering. The people all have an interest in it, and they are going to look to the present Board to do something in the way of building up a

. We shall not presume to give these gentlemen any advice, as to who they should select as Teachers. We only urge them to be prompt and energetic in reorganizing the school and advertising it so that the public will know in ample time that McMinn Academy is to have a first-rate man there as Principal,

If our town ever is anything more than a quiet, slow-going old village, our school must cause the change. We can never have a manufacturing town had at any and all times. It is a well established fact, that Ta-bler's Buckeye Pile Ointment will cure, if used according to directions. The Æsculus Hippocastanum, or Horse Chesnut, commonly known as the Buckeye, has been highly esteemed for many years, owing to the fact, that it possesses virsaid to be an excellent teacher and a tues, lying in the bitter principle called which can be utilized for the cure of Piles.
